

The Rhode Island Department of Education (RIDE) Early Warning System tool includes a set of indicators that enables educators and school teams to identify and intervene with students at risk of not graduating high school on time. The Early Warning System (EWS) screens all students from 6th through 12th grade using six data points to help educators meet the global needs of their school and ensure that all students are successful in graduating high school ready for college, career and life. **For each student in a district, six risk indicators are displayed.** The indicators are:

- **Attendance Percentage**- The percentage of days students are present at school in a given school year.
- **Number of Suspensions**- The count of the number of suspensions accumulated by students over a school year.
- **Years Over-age**- The number of years students are older than a typical student in a given grade.
- **Aggregate On-Track Percentage**- The likelihood of students graduating on time if they stay on their current path.
- **NECAP Reading and Math Scores** – The score students received on the last administration of the Math and Reading state assessment, the New England Common Assessment Program (NECAP).

The RIDE Early Warning System can be accessed through RIDEmap; **Log into EWS via the RIDEmap Portal**

1. <https://ridemap.ride.ri.gov>
2. Refer to [instructions](#) from RIDE.

The Rhode Island Early Warning System
The Rhode Island Department of Education (RIDE) Early Warning System tool includes a set of indicators that enables educators and school teams to identify and intervene with students at risk of not graduating high school on time. The Early Warning System (EWS) screens all students from 6th through 12th grade using six data points to help educators meet the global needs of their school and ensure that all students are successful in graduating high school ready for college, career and life. For each student in a district, six risk indicators are displayed. The indicators are:

- **Attendance Percentage** - The percentage of days students are present at school in a given school year
- **Number of Suspensions** - The count of the number of suspensions accumulated by students over a school year
- **Years Over-age** - The number of years students are older than a typical student in a given grade
- **Aggregate On Track Percentage** - The likelihood of students graduating on time if they stay on their current path
- **NECAP Reading and Math Scores** - The score students received on the last administration of the Math and Reading state assessment, the New England Common Assessment Program (NECAP).

These values are color coded by risk level. The risk levels are benchmarked as follows:

Shading	Risk Level
Green	Low Risk
Yellow	Some Risk
Orange	At Risk
Red	High Risk

For help, questions or comments regarding the Early Warning System, please submit a ticket to the help desk at support@ride.ri.gov

For more information, contact Cali Cornell at Cali.Cornell@ride.ri.gov

Once logged into the EWS, users have access to an Aggregate Student Report and the ability to view disaggregated student reports by grade, class section, gender, race/ ethnicity, socioeconomic status, and special education status.

Aggregate Report [\[Save Report as a PDF File\]](#)

The aggregate report below is displaying student level data on the following measures: On-track to Graduation percentage, Attendance Percentage, Number of Suspensions, Years Over-age and NECAP math and reading scores.

Note: The indicators below were processed on 10/10/2013 3:01:15 AM. When generating the indicators, RIDe uses the most current data available to RIDe which has been submitted by your LEA.

Indicator	Low Risk	Some Risk	At Risk	High Risk
On Track Percentage	95.18% (1166)	1.96% (24)	1.80% (22)	1.06% (13)
Attendance Percentage	91.18% (1117)	3.59% (44)	2.20% (27)	3.02% (37)
Number of Suspensions	99.92% (1224)	0.08% (1)	0% (0)	0% (0)
Years Over Age	88.33% (1082)	6.37% (78)	3.43% (42)	1.88% (23)
Math Score	63.76% (781)	18.53% (227)		17.71% (217)
Reading Score	83.84% (1027)	10.61% (130)		5.55% (68)

*This image has been distorted to protect the privacy of students.

Each report displays individual student data for each EWS indicator, as well as a summary table that provides the number and percentage of students at each risk level. Data is updated on a daily basis.

These reports may be saved as a PDF or exported into Microsoft Excel.
